* Mount Kenya viewed
from Ol Bobongi House

“

Ol Bobongi House is incredible – elegant, comfortable, magnificently decorated, thoughtfully organized and breathtakingly beautiful! Literally every detail was perfect, from the bouquets of roses left in the master bedroom and front hall, the delicious and ample breakfasts, the wonderful cooking of the kind and caring staff, the polite, affectionate and well-behaved pets, and, most of all, the tranquillity and beauty of the surroundings.

The house's gorgeous wrap-around veranda looks out over gardens lush with flowers – so much fragrant lavender! – up to Mount Kenya. The bathtub in the master bath is exquisite, and there is an entire film screening room with hundreds of movies & TV Series to choose from!

We had each meal of the day at a different beautifully-set table. It was a chance to feel like a well-cared-for millionaire for a weekend!
